Nannie Rogers, living at 1341 Delaware avenue southwest, attempted to commit suicide yesterday evening, about 5 o'clock, by putting a loaded pistol to her head, but by putting a loaded platol to her head, but the weapon was taken away before she could do any damage. It was thought then that she hed absononed all idea of taking her life, but her friends were mistaken. It was soon discovered that she had taken arsenic. Br. Holden was summoned and asid she was not in a serious condition. The only cause for the reach act that could be learned was depression of spirits and fam-ily troubles.

The Pennsylvania Halicont, New York and Chicago Limited, Com-posed of the New and Magnifi-cent Puliman Vestibuled Cars.

The new and Juxurious Pullman Vesti-nied Cars will be placed in service on the sylvania Raitroad, communiting June

Pennylyania Kairoad, commencing June 18th.

There care, the latest production of the Pullman Palace Car Company, and the exemplification of the Uest skill and the eleverest ingenuity of the car builder, will take the place of the ordinary Pullman Sleeping Cars, with which this train has bereitofore been equipped. They combine every good feature of the old system with numerous improvements which have never-before been employed in car construction. Under the new arrangement separate coaches lose their identity and are merged into one elongated coach, which contains every convenience a traveler could find in the best hotel. The coaches may be said to be arranged or said, so easy is the mode of communication between them.

This desirable result is obtained by including the content of the coaches may be said to the coaches of the coaches may be said to the arranged or said, so easy is the mode of communication between them.

surface.

By this means a wonderful steadiness of motion is obtained, while there is sufficient feathful at points of contact to enable the frait to round curves. The additional case secured is a great point, but a greater still is the protection against telescoping in case of rollision, which the powerful steel frames afford. Sheets of rubber cover the junction points, and oppose an unbroken obstruction to the entrance of wind, dust, or rain. The interior of the vestibules are furnished, lighted and carpeted, so as to conceal any break in the cuntinuity of the floor. Plategiase doors open at the top of the steps, so that as soon as one passes through the floor has not only in the car but in the train. Passengers may pass from car to car without exposure to danger or weather, and with the same facility as they could pass down the sales of the car.

Many innovations have been added to the equipment of the train, among which the most novel is a barber shop. The easy motion secured by the singleness of the train renders shaving safe and easy.

The interior appointment and decorations surpass anything of the kind ever produced. The Limited will continue to run on the same unexcelled time between New York, Philadelphia, Washington, Baltimore, and Chicago and Cincinual. By this means a wonderful atendiness of

He for eight years had charge of the Ebbitt House drug store and has been chief clerk for such men as Wm. S. Thompson, Daniel B. Clark & Co., and others equally prominent. Five years ago be entered business for himself, and has been exceptionally successful. He has in his store a branch postoffice, which is a great advantage to the people of the southwestern district. Though Mr. Price has already a very fine soda foundath, he has made arrangements for a still finer one, which will be the largest and best in South Washington.

John M. Mitchell, undertaker, at No. 725 Eleventh street southeast, has been since 1809 in the same locality; in fact, was born upon the same street, where he is at present engaged in business. He has had large experience in the care of funerals, and patrons may feel assured that the utmost decorum will be preserved. He takes full charge and his prices are reasonable. Our Men's Shirt Factory.

We call attention to our well-organized and successful factory for the manufacture of Men's Shirts to measure. This branch of our business is attaining considerable prominence, due entirely to the high order of workmanship and the excellent quality of the materials we offer at such nominal prices. Mr. A. J. Lockhart, who has charge of this department, is a practical shirt cutter and fitter of experience and ability, and employs none but capable sewers and finishers. We guarantee a fit satisfactory in every particular. We specially invite gentlemen who have been paying fancy prices for custom-made Shirts, and others who have had poor success heretofore to give this department an opportunity to demonstrate what we have said about it. Our prices are as follows:

We are showing an elegant line of Fancy Madras and French Percales for Shirtings in a varied assort-ment of handsome patterns, from which we are prepared to make to measure any number of Shirts desired at very reasonable prices.

The number of custom orders we take every day is a convincing argument of our success in this direction, which is attributable to the scrupulous care and supervision given every single Shirt before it leaves our establishment.
